

Egg box mushroom crafting

What to do:

<p>Use some scissors and cut out the „cup“ part of the egg box. >> mushroom's head</p>	 An image showing a pair of scissors cutting out a circular piece from an egg carton. A red circle highlights the area to be cut, and a red arrow points to it. To the right, a separate image shows the cut-out circular piece.
<p>Cut out the separator parts of the egg box. >> mushroom's stem</p>	 An image showing a pair of scissors cutting out a triangular piece from the separator part of an egg carton. A red triangle highlights the area to be cut.
<p>Paint the mushroom heads red and the stems white. Be careful with the paint!</p>	 An image showing a paintbrush with red paint on the tip. To the right, a close-up image shows a mushroom head that has been painted red.
<p>When your teacher gives you a paper plate, take it, go outside and look for leaves, rocks, moss, sand, etc. Collect them on the plate.</p>	 An image showing a paper plate with various nature items collected on it, including leaves, a pine cone, and a small rock. A magnifying glass icon is also present, symbolizing the search for these items.
<p>Are the heads <i>dry (trocken)</i>? Use white paint to make dots on the mushroom heads.</p>	 A close-up image of a red mushroom head with several white dots painted on it.
<p>Glue both parts together.</p>	 An image showing a red mushroom head and a white stem being glued together. A glue bottle is shown with a red arrow pointing to the stem, and a green checkmark is next to the finished mushroom.
<p>Arrange everything nicely on the plate.</p>	 An image showing the completed mushroom arrangement on a paper plate, surrounded by leaves and a pine cone. A smiling face with heart eyes emoji is next to it, indicating a successful and enjoyable result.
